Summary of 2025:

The Norwegian Chinese Chamber of Commerce (NCCC) started its operations in 2026. NCCC focuses on promoting trade and business opportunities between Norway and China through networking.

The cultural differences between the countries are significant. NCCC wants, through our events to contribute promoting a deep and good understanding of both cultural similarities and cultural differences.

NCCC is the leading membership organisation in Norway for companies engaged in China. NCCC aims to be the preferred platform for both Norwegian and Chinese business participants. By connecting key stakeholders, we want to help unlock lasting value across markets.

NCCC functions as a professional and social forum where members can share experiences, build strong networks and collaborate on new opportunities. Our corporate members profile themselves, among other things, by being co-organisers of our members' meetings. This gives them the opportunity to actively participate in our activities and help shape the dialogue in society.

As a facilitator of relations between our two nations, NCCC held six members' meetings in 2025 with varied and current content. We always seek to present current and groundbreaking topics by inviting renowned and profiled experts and profiled speakers for the benefit of our members. This can also be in collaboration with other organizations, such as Innovation Norway. In 2025, we supported our members' active participation in the 8th CIIE in Shanghai between 5 and 10 November,

In 2025, a total of 415 people attended NCCC's six member meetings.

Administration:

The daily administration of NCCC, including accounting, website and communication was taken care of by Managing Director Elise Chen, with assistance from her staff; Web-designer Pepwork Design, NCCC Event assistant Taotao Liu and Accounting manager Ms. Suong Hoang.

Ms. Elise Chen has the main responsibility for promoting the NCCC organization, NCCC event management, and was the main contact person for NCCC members.

Members:

NCCC had a total of 101 members at the end of 2025, consisting of 81 corporate members and 20 individual members.
